

Post MiFID II Survey Results

July 2019

Overview

Virtu recently asked its buy side clients to participate in a voluntary survey meant to evaluate the possible impact of MiFID II on how market participants produce, consume, and pay for research. Below are some of the highlights from the results.

- 30% of respondents work with more than 60 research providers
- Over 40% of respondents expect to decrease spending on research from 2018 to 2019
- Of those who consume research, much of the research is from independent research providers
- Over 90% of respondents using a CSA program – the most of any form of payment
- 22% of respondents are finding it more difficult to access research
- 30% of respondents have decreased the number of execution firms

To see more survey results and learn how Virtu's suite of solutions can help, please contact your Virtu sales representative or reach us at info@virtu.com.
