

Multi-Asset Transaction Cost Analysis

Extend your analysis across asset classes with the help of our experienced global coverage team

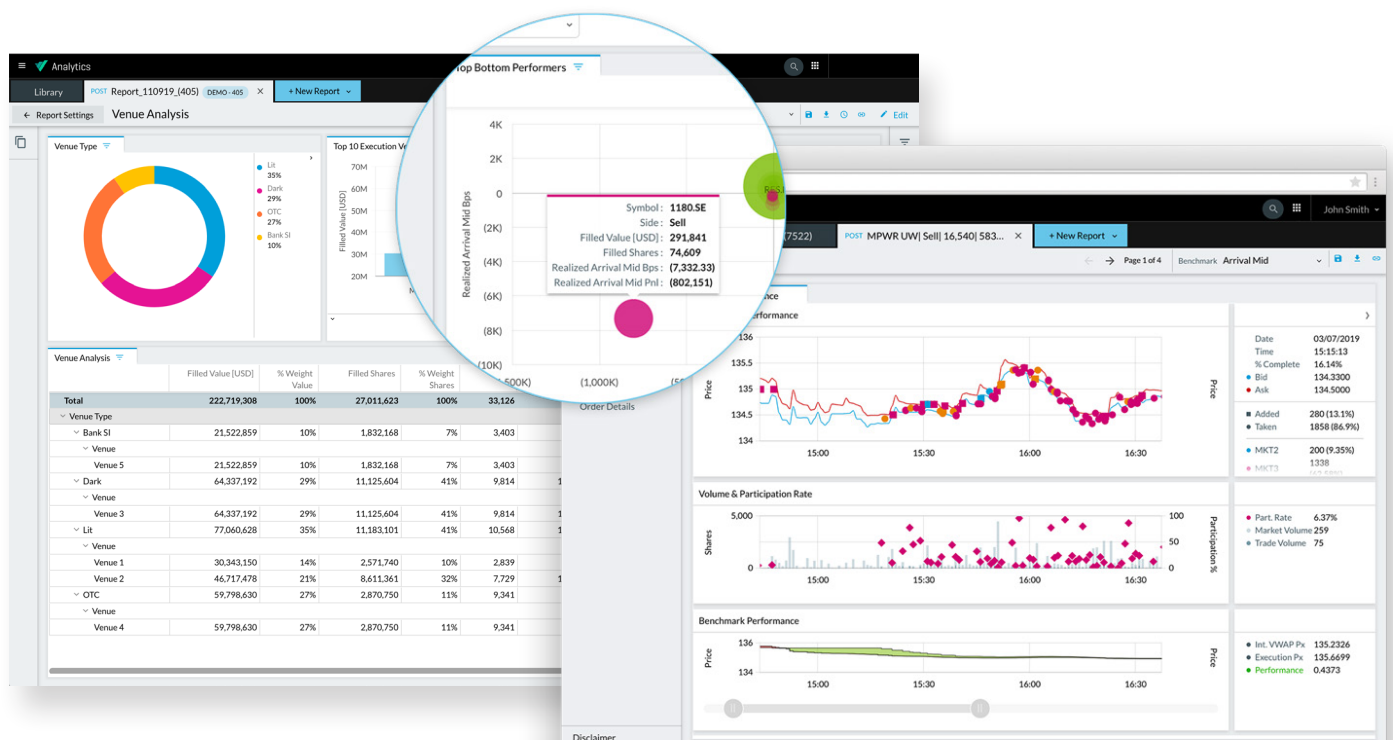

Leverage Virtu’s global transaction cost analytics (TCA) across your equities, futures, FX and fixed income orders for insight on what it costs to implement your investment decisions.

Rely on Virtu’s multi-asset TCA to optimize your execution workflow across the entire investment process:

- Integrate with all major OMS and EMS.
- platforms to consolidate the view of your transaction costs, no matter how or what you trade.
- View your equities, futures, FX and fixed income transaction costs in our new and integrated portal dashboard, which facilitates rich visualizations and easy API data access.
- Link your multi-asset trading strategies to better understand your net cost of trading and find opportunities for alpha preservation.
- Measure your performance against a suite of best execution benchmarks, including Virtu’s FX spot benchmark, as well as our Global Peer database.
- Analyze venue-specific transaction costs for your high-touch brokers and low-touch algos.
- Test the effectiveness of your new trading strategies.
- Get access to regulatory reporting tools including multi-asset trade surveillance, liquidity analysis and reporting covering MiFID II, PRIIPs, RTS 28 and RG 97.
- Automate senior management and board reporting.
